## Mounts Spring Show and Sale April 25-26

The Mounts Spring Show will be Saturday, April 25 to Sunday, April 26 at the Mounts Botanical Gardens in West Palm Beach. We are planning to be in the Exhibit Hall and will be doing demonstrations on the patio outside.

This is one of the two most important shows the club participates in every year. It features some of the most talented artists in our club. At the same show many local plant vendors will also offer their wares. This show provides important revenue to both the club and Mounts Botanical Garden.

The show falls, as always, on the same weekend as our April meeting. We encourage members attending the meeting to visit the Gardens after the meeting ends. It is a great way to show our support for the Gardens and to see the club in action outside meetings and workshops.

Setup will be Friday, April 24 at 1pm. If you would like to participate, please email Gerhard by Monday, April 20 with your name, any preferences as to time and day you would like to serve, and if you can do a demonstration to support the Club's effort.

Marilyn Campbell and Hands On Workshop Students.

## Marilyn Campbell, Meet and Eat Picnic, Okeehetee Earth Day

.The past thirty days have been a busy time for the PBCW. Beginning with the March meeting a series of

events have unfolded that have kept the membership busy and entertained.

Thirty two members and guests attended the demonstration by Marilyn Campbell on March 28. They observed as Marilyn demonstrated the techniques that have made her work so sought after by collectors. The following Sunday and Monday three students took part in hands on classes at Tim Rowe's shop.

On April 4 the clubs annual Meet and Eat picnic drew members and their guests with promises of food and camaraderie with a woodturning atmosphere.

Also earlier this month the PBCW participated in the Okeehetee Nature Center's Earth Day celebration on April 18. Jeff Rader led the club's participation. This annual event gives the PBCW an opportunity to present itself to interested members of the non-turning community and to show our appreciation to the Nature Center for its support. Unfortunately, due in part to short notice, Jeff had considerable difficulty finding members to volunteer to support the club's effort. This will surely be a focus at the club's next board meeting since maintaining the goodwill of the Nature Center is so important to the club.
